

FOI_0709_2022-23 – FOI Request Concerning – Weight Management

The request for information under the Freedom of Information Act (2000). We are carrying out research into weight management for people affected by Severe Mental Illness

- 1. Do you offer a service or program which: aims to increase exercise levels, improve eating habits or reduce weight, and is aimed at patients with mental illness or learning disability, inpatients or outpatients?**

Community Services: No. People are signposted to other agencies to access help. We may support patients in accessing these depending on need.

Inpatient Services: No. We do not have a formal service/program pathway for this. We have some information available to service users and some groups on the wards but would not be able to provide anything this specific.

Learning Disability Service: No.

- 2. If yes, we would like to see: Referral criteria Any documents related to the treatment pathway or services offered by this program the number of patients who have accessed this program since 2017**

N/A

- 3. If yes, are any doctors involved in the delivery of this program?**

N/A
