

FOI_1025_2022-23 – FOI Request Concerning – Epilepsy Treatment

In the last 12 months of available data:

- 1. What number of unique patients have been treated for Lennox-Gastaut syndrome, Dravet Syndrome and Tuberous Sclerosis Complex? Please give answers for each condition separately.**

One person with Dravet
Two people with TSC,
No data for Lennox- Gastaut.

- 2. For each indication (Lennox-Gastaut syndrome, Dravet Syndrome and Tuberous Sclerosis Complex), what number of these have been treated in a paediatric environment?**

None treated in Paediatrics in the last 12 months:

Patient 1, with Dravet's was under Paediatrics at UHS until August 18'

Patient 2, with TSC, has profound and multiple learning disabilities and so most probably would have been under Paediatrics.

Patient 3 was seen under paediatrics team at UHS until 2014.

- 3. How many patients have been treated with Epidyolex in a paediatric environment?**

N/A

- 4. Can you please detail which NHS Trusts/ Health Boards these patients have been referred from?**

All of these patients were referred more than 12 months ago.

Patients 1 and 3 were referred from Wessex Neurology at UHS

Patient 2 from Southern Health Foundation trust (he is also under UHS Wessex neurology).

There are no patients on Epidyolex
