

FOI_0924_2022-23 – FOI Request Concerning – AMH

Can I please get responses broken down into the calendar years: 2018, 2019, 2020, 2021 and 2022 (to date)?

- 1. How many adults were referred to your Trust’s mental health services for each of these years?**

See accompanying Referrals file

- 2. How many adults were referred for psychological therapy treatment in each of the following years?**

2019 = 264, 2020 = 262, 2021 = 218, 2022 Jan-Oct = 103 (2019 first complete year for data recording)

- 3. How many adults were referred for a mental health bed in each of the following years?**

Unique count of patients accessing our Mental Health inpatient wards by year

Year	Unique Patient Count
2017	593
2018	586
2019	589
2020	452
2021	415
2022 YTD	314

- 4. What was the average and longest waiting time (in days) for referred adults for:**

- a. A first mental health appointment**

See attached report on A2i assessment waiting times. We can confirm the average waiting time to assessment for Crisis patients is consistently within the 4 hour target as reported in annual benchmarking submissions made against financial year

- b. The start of psychological therapy treatment**

See attached report on Secondary care psychological therapies treatment waiting times

c. Admission to a mental health bed

0 We have not had anyone having to wait for a bed

5. How many adult mental health beds did the trust have in each of the following years?

Number of beds available for 2018- October 2022 are;

- Hawthorn (Adult Acute) 20*
- Maples (PICU) 10
- Brooker (Older persons) 22

*For a brief period between 2021 and 2022 available beds did temporarily reduce for Adult acute to 14 due to a Ward movement to facilitate work being carried out on the Maples ward. During this time access for these patients was provided on our functional OPMH ward.
