Ward	Admissions
Brooker OPMH	
Hawthorn AMH

These figures include internal ward movement, so if someone moves from Hawthorn to Maples and back to Hawthorns, that is 2 admissions to Hawthorn and one to Maples

**Ward gender type (male/female/mixed)**

**Mean age of patients admitted during reporting period**

**How many of the patients reported under 1.a. were parents (as defined above)?**

This information is not recorded centrally and would require a manual trawl of patient medical records. This is therefore being exempt under Section 12 of the FOI Act
